WIZARD SUBCLASS · D&D 2024

Voidwalker

Wizards of the Void see the universe as something to be unmade, and they feed on the collapse.

V0.1 PLAYTEST DESTINY WARLOCK · VOID INSPIRED BY DESTINY 2

SHARED DESTINY RULES

This subclass uses the Grenade, Charged Melee, Class Ability, Super, and element keyword rules from the Destiny Overview & Chassis.

longrestpress.com/destiny-overview.html

The Voidwalker is the Void Destiny warlock as a Wizard subclass. The fantasy is a glass cannon who survives by consuming enemies. Its signature tools are a lingering grenade, a life-draining melee cantrip, and a choice of Super: Nova Bomb for artillery or Nova Warp for blinking through enemy lines. Void uses Force damage, and the key ability is Intelligence.

WIZARD LEVEL	FEATURES
3	Void Savant, Vortex Grenade, Energy Drain
6	Devour, Rift
10	Super: Nova Bomb or Nova Warp
14	Chaos Accelerant

LEVEL 3

Void Savant

Choose two Wizard spells that deal Force damage or teleport you, and add them to your spellbook for free. Whenever you gain access to a new level of spell slots in this class, you can add one more such spell to your spellbook for free.

LEVEL 3

Vortex Grenade

This is your Grenade. As a Bonus Action, you create a 10-foot-radius sphere of swirling void centered on a point you can see within 60 feet. Each creature in the sphere makes a Dexterity saving throw, taking your grenade damage as Force damage on a failed save or half as much on a successful one.

The sphere lingers until the start of your next turn. A creature makes the same save when it enters the sphere for the first time on a turn or ends its turn there. A creature can take damage from the sphere only once per turn.

LEVEL 3

Energy Drain

This is your Charged Melee. You learn the Energy Drain cantrip, which doesn't count against the number of cantrips you know.

Energy Drain

Evocation Cantrip (Voidwalker)

- **Casting Time:** Action
- **Range:** Touch
- **Components:** V, S
- **Duration:** Instantaneous

Make a melee spell attack against a creature. On a hit, the target takes 1d8 Force damage, and you gain Temporary Hit Points equal to the damage dealt.

Cantrip Upgrade. The damage increases by 1d8 when you reach levels 5 (2d8), 11 (3d8), and 17 (4d8).

LEVEL 6

Devour

When you reduce a creature to 0 Hit Points with a Wizard spell, Energy Drain, or your Vortex Grenade, you can enter Devour for 1 minute. While Devour is active, whenever you reduce a creature to 0 Hit Points, you regain Hit Points equal to your Wizard level plus your Intelligence modifier.

Once you enter Devour, you can't do so again until you finish a Short or Long Rest unless you expend a level 1+ spell slot to do so.

LEVEL 6

Rift

You gain the Rift Class Ability from the Shared Chassis. Voidwalker twist: when you create a Rift, you can enter Devour without expending its use or a spell slot.

LEVEL 10

Super

When you finish a Long Rest, choose Nova Bomb or Nova Warp as your Super. You can regain its use by expending a level 5+ spell slot (no action required).

Nova Bomb. As a Magic action, you hurl a sphere of void at a point you can see within 120 feet. Each creature in a 20-foot-radius sphere centered on that point makes a Dexterity saving throw, taking 10d10 Force damage on a failed save or half as much on a successful one. The area then becomes a Vortex Grenade sphere until the start of your next turn.

Nova Warp. As a Bonus Action, you become unstable void for 3 rounds. The effect ends at the start of your turn 3 rounds later. While it lasts, you gain these benefits:

- **Void Form.** You have Resistance to Bludgeoning, Piercing, and Slashing damage, and you can't cast spells using spell slots.

- **Warp.** Once on each of your turns, including the turn you activate Nova Warp, you can teleport up to 30 feet to an unoccupied space you can see (no action required). Each creature of your choice within 5 feet of where you appear takes 2d6 Force damage.
- **Charged Burst.** As a Magic action, you detonate. Each creature of your choice within 15 feet of you makes a Constitution saving throw, taking 6d8 Force damage on a failed save or half as much on a successful one.

LEVEL 14

Chaos Accelerant

Both Supers. You no longer choose a Super when you finish a Long Rest. Each time you use your Super, choose Nova Bomb or Nova Warp.

Volatile. When a creature takes damage from your Vortex Grenade or your Super, it becomes Volatile until the end of your next turn. The next time a Volatile creature takes Force damage from you, it explodes, and each creature of your choice within 5 feet of it takes 2d6 Force damage. The creature then stops being Volatile. Creatures damaged by an explosion don't become Volatile from it, but an explosion can detonate other creatures that are already Volatile.

PLAYTEST WATCH LIST

Six things to watch at the table, along with the lever to pull if one runs hot.

WATCH ITEM	CONCERN	LEVER IF TOO STRONG
Grenade plus a leveled spell on the same turn	The grenade isn't a spell, so it bypasses the 2024 rule that limits casting a Bonus Action spell and another leveled spell on the same turn	Treat the grenade as a level 1+ spell for that rule
Energy Drain's Temporary Hit Points	They're gained every turn, though they don't stack	Grant half the damage dealt instead
Nova Bomb at 10d10	It's roughly 6th-level spell power, which is intended for a Super	Drop it to 8d10

WATCH ITEM	CONCERN	LEVER IF TOO STRONG
Nova Warp's sustained damage	It can deal about 95 damage per target over 3 turns if enemies stay close	Lower Charged Burst to 5d8
Nova Warp's length	It runs 3 rounds as a starting point, meant to feel like a short Destiny Super	Adjust after play
Volatile chains	Chains can cascade across tightly packed groups	Limit to one explosion per turn
